PROFESSIONAL SUMMARY

Detail-oriented Computer Science graduate with strong hands-on experience in full-stack JavaScript/TypeScript and Python development. Proven track record of building automated AI systems, parsing complex data formats, and developing scalable Node.js applications. Strong foundational understanding of data-driven workflows and cloud-ready infrastructure. Seeking to leverage technical skills in React, TypeScript, and Python as a Software Engineer at Covealent.

EDUCATION

BS in Computer Science

University of Saroghda

CGPA: 3.8

2022 – 2026

SKILLS

Programming

Python, JavaScript, TypeScript

AI / Automation

LLM-based applications, prompt engineering, automation scripts

Tools

Git, GitHub, Linux basics, VS Code

Frameworks & Libraries

Next.js, Astro, Node.js, Express

PROJECTS

Automated SRS Generator (Final Year Project)

- Built an AI-powered system to generate Software Requirement Specifications from user input.
- Used Python backend with LLM integration.
- Designed structured multi-step processing workflow to improve documentation efficiency.

CS Department Website 🌐

- Website for Department of Computer Science
- Used Astro and Typescript
- Implemented a Python based timetable-parser

Ticket Bot (Node.js) 🌐

- A Ticketing Discord Bot made using Node.js and Discord.js library.

Cybersecurity & IT Internship Exposure

- Worked in enterprise IT environment with network infrastructure support.
- Assisted in OLT configuration and CCTV network setup.
- Observed pfSense firewall and internal network monitoring systems.

CERTIFICATES

- Python for Everybody Specialization 🌐
- National Skill Competency Test | Rank 65 | Top 0.2%
